To read Lacan closely is to follow him to the letter, to take him literally, making the wager that he comes right out and says what he means in many cases, though much of his argument must be reconstructed through a line-by-line examination. And this is precisely what Bruce Fink does in this ambitious book, a fine analysis of Lacan's work on language and psychoanalytic treatment conducted on the basis of a very close reading of texts in his *Ecrits: A Selection*. As a translator and renowned proponent of Lacan's works, Fink is an especially adept and congenial guide through the complexities of Lacanian literature and concepts. He devotes considerable space to notions that have been particularly prone to

Read Online Ecrits A Selection

misunderstanding, notions such as "the sliding of the signified under the signifier," or that have gone seemingly unnoticed, such as "the ego is the metonymy of desire." Fink also pays special attention to psychoanalytic concepts, like affect, that Lacan is sometimes thought to neglect, and to controversial concepts, like the phallus. From a parsing of Lacan's claim that "commenting on a text is like doing an analysis," to sustained readings of "The Instance of the Letter in the Unconscious," "The Direction of the Treatment," and "Subversion of the Subject" (with particular attention given to the workings of the Graph of Desire), Fink's book is a work of unmatched subtlety, depth, and detail, providing a valuable new

Read Online Ecrits A Selection

perspective on one of the twentieth century's most important thinkers. Bruce Fink is a practicing Lacanian psychoanalyst, analytic supervisor, and professor of psychology at Duquesne University in Pittsburgh. He is the author of *A Clinical Introduction to Lacanian Psychoanalysis* (1997) and *The Lacanian Subject* (1995). He has coedited three volumes on Lacan's seminars and is the translator of Lacan's *Seminar XX, On Feminine Sexuality, the Limits of Love and Knowledge* (1998), *Ecrits: A Selection* (2002), and *Ecrits: The Complete Text* (forthcoming).

The *Écrits* was Jacques Lacan's single most important text, a landmark in psychoanalysis which epitomized his aim of returning to Freud via structural linguistics, philosophy and literature. Reading Lacan's *Écrits* is the first extensive set of commentaries on the complete edition of Lacan's *Écrits* to be published in English. An invaluable document in the history of psychoanalysis, and one of the most challenging intellectual works of the twentieth century, Lacan's *Écrits* still today begs the interpretative engagement of clinicians, scholars, philosophers and cultural theorists. The three volumes of Reading Lacan's *Écrits* offer just this: a series of systematic paragraph-by-paragraph commentaries – by some of the world's

Read Online Ecrits A Selection

most renowned Lacanian analysts and scholars – on the complete edition of the *Écrits*, inclusive of lesser known articles such as ‘Kant with Sade’, ‘The Youth of Gide’, ‘Science and Truth’, ‘Presentation on Transference’ and ‘Beyond the "Reality Principle"’. The originality and importance of Lacan’s *Écrits* to psychoanalysis and intellectual history is matched only by the text’s notorious inaccessibility. Reading Lacan’s *Écrits* is an indispensable companion piece and reference-text for clinicians and scholars exploring Lacan’s magnum opus. Not only does it contextualize, explain and interrogate Lacan’s arguments, it provides multiple interpretative routes through this most labyrinthine of texts. Reading

Lacan's *Écrits* provides an incisive and accessible companion for psychoanalysts and psychoanalytic psychotherapists in training and in practice, as well as philosophers, cultural theorists and literary, social science and humanities researchers who wish to draw upon Lacan's pivotal work.

This new translation of Jacques Lacan's deliberation on psychoanalysis and contemporary social order offers access to the author's seminal thinking on Freud, Marx, and Hegel; patterns of social and sexual behavior; and the nature and function of science and knowledge in the contemporary world. --From publisher's description.

Read Online Ecrits A Selection

The work of Jaques Lacan, eminent French psychoanalyst and influential thinker (1901-1981), is recognized as being of vital importance to psychoanalysts, philosophers, and all those concerned with the the study of man and language. Its value is not limited to the field of psychoanalysis alone, but provides the basis for a new philosophy of man and a new theory of discourse. It is, however, notoriously difficult for the non-specialist reader to come to terms with Lacan's reading of Freud and his investigations of the unconscious. Until now, there has been no satisfactory general introduction to Lacan, and this first general exposition of his work, translated and

Read Online Ecrits A Selection

revised from the French edition, is designed to provide the conceptual tools which will enable the reader to study Lacan using the original texts.

This book is a close reading of Jacques Lacan's seminal essay, "The Agency of the Letter in the Unconscious or Reason Since Freud," selected for the particular light it casts on Lacan's complex relation to linguistics, psychoanalysis, and philosophy. It clarifies the way Lacan renews or transforms the psychoanalytic field, through his diversion of Saussure's theory of the sign, his radicalization of Freud's fundamental concepts, and his subversion of dominant philosophical values. The authors argue,

Read Online Ecrits A Selection

however, that Lacan's discourse is marked by a deep ambiguity: while he invents a new "language," he nonetheless maintains the traditional metaphysical motifs of systemacity, foundation, and truth.

"Ecrits" is the essential source for anyone who seeks to understand this seminal thinker and his influence on contemporary thought and culture.
