‘ God ’ s fingerprint ’ was the first piece of artwork I made as a Christian. I ’ m not sure how the idea came into my mind—but once it was there, I couldn ’ t stop thinking about it. I never saw myself as an artist—so it all seemed a bit strange to me. The idea in my mind was simple: a fingerprint with verses of Scripture in place of the lines. The details were still foggy though. What ...

Graham Hancock's multi-million bestseller *Fingerprints of the Gods* remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with a book filled with completely new, scientific and archaeological evidence, which has only recently come to light... The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometres of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic

flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...

The Instant New York Times Bestseller! Was an advanced civilization lost to history in the global cataclysm that ended the last Ice Age? Graham Hancock, the internationally bestselling author, has made it his life's work to find out--and in *America Before*, he draws on the latest archaeological and DNA evidence to bring his quest to a stunning conclusion. We've been taught that North and South America were empty of humans until around 13,000 years ago — amongst the last great landmasses on earth to have been settled by our ancestors. But new discoveries have radically reshaped this long-established picture and we know now

that the Americas were first peopled more than 130,000 years ago — many tens of thousands of years before human settlements became established elsewhere. Hancock's research takes us on a series of journeys and encounters with the scientists responsible for the recent extraordinary breakthroughs. In the process, from the Mississippi Valley to the Amazon rainforest, he reveals that ancient "New World" cultures share a legacy of advanced scientific knowledge and sophisticated spiritual beliefs with supposedly unconnected "Old World" cultures. Have archaeologists focused for too long only on the "Old World" in their search for the origins of civilization while failing to consider the revolutionary possibility that those origins might in fact be found in the "New World"? *America Before: The Key to Earth's Lost Civilization* is the culmination of everything that millions of readers have loved in Hancock's body of work over the past decades, namely a mind-dilating exploration of the mysteries of the past, amazing archaeological discoveries and profound implications for how we lead our lives today.

What secrets lie beneath the deep blue sea? *Underworld* takes you on a remarkable journey to the bottom of the ocean in a thrilling hunt for ancient ruins that have never been found—until now. archaeologists never thought existed. You will be captivated by *Underworld*, a provocative book that is both a compelling piece of hard evidence for a fascinating forgotten episode in human history and a completely new explanation for the origins of civilization as we know it.

To a blind person, human touch is essential. In the absence of facial expressions, it reassures and comforts. But can you still feel the warm and soothing touch of an unseen God? Author and musician Jennifer Rothschild, who lost her vision at the age of fifteen, explains how God's touch works from the inside out, warming the heart, mind, and soul. It lifts weights that eyes could never see. It washes away the anguish of guilt, the bite of fear, and the ache of loneliness. With the gentle pressure of His hand on our shoulders, we can find our way through the darkest of nights. From the Hardcover edition.

An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as "a trick of light"? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, *The Mars*

Mystery is both an illumination of our ancient past and a warning--that we still have time to heed--about our ultimate fate.

Star dust! That is what our physical bodies are made of. But the real us - the spiritual beings temporarily clothed in star dust - we are the stuff of eternity, organized by God. In this fascinating book, Arvin Gibson takes us on a journey to find answers about the mysteries of God's existence, and of our existence too. That journey takes us on three different paths: near-death studies, the creation as understood by scientists, and Mormon theology. As the journey expands, we find that there are interwoven patterns from each of the paths pointing to an inescapable conclusion - that proofs of God's existence are everywhere. In this journey you will marvel at the illuminating accounts of people who have had near-death experiences (NDEs) where they received profound glimpses of life beyond mortality. The reality of those experiences, documented by corroborative evidence of what they saw and heard while out of their bodies, strongly confirms the existence of God and His influences in our lives. Next, you will see how our physical creation started with the big bang and expansion of the universe. You will follow that expansion of the universe. You will follow that expansion of the universe. You will follow that expansion from a small point of enormous energy to the almost limitless cosmos which we now see. The miracle of life and the improbability of its chance formation will be exposed to your view. Comparison will show you the remarkable agreement between early Mormon experiences and the many NDEs of current interest. Finally, you will see how the Plan of Salvation, as explained in Mormon theology, provides a road map which overlays all of the paths to truth which this book discusses. Many fingerprints of God will be illustrated, and those fingerprints literally shout the message: the laws which govern our universe, the universe itself, and all life therein were created by God. We are sons and daughters of God, commissioned by Him to come to earth for further growth and development. Our destiny, should we
