This book is a practical guide to the very practical subject of Tax Due Diligence. It aims to show that tax due diligence is not a commodity by leading the reader through the tax due diligence process and explaining at each stage how to extract the maximum value from tax due diligence. This book is aimed at anyone in industry or practice who is commissioning or planning a tax due diligence exercise or who is responsible for its performance.

Licensing Electronic Resources in Academic Libraries: A Practical Handbook provides librarians charged with reviewing, negotiating, and processing

licenses with fundamental information that will ensure they not only understand the contents of a license, but are also able to successfully complete the licensing life cycle from start to finish. The contents of the monograph includes basic concepts, real word examples, and tips for negotiation. Ideal resource for both new and practicing librarians who are responsible for licensing information resources Written from both a librarian's and procurement officer's point-of-view Includes examples directly related to libraries Provides a step-by-step explanation of contract language and suggestions on how to best negotiate impasses and negotiation tips

Sport Law: A Managerial Approach, third edition, merges law and sport management in a way that is accessible and straightforward. Its organization continues to revolve around management functions rather than legal theory. Concise explanations, coupled with relevant industry examples and cases, give readers just enough legal doctrine to understand the important concepts that apply to each area. This book will help prepare students as they get ready to assume a broad range of responsibilities in sport, education, or recreation. Whether readers work as coaches or teachers; administer professional programs; manage fitness/health clubs; or assume roles in a high school, college, Olympic, or professional sport organization, legal concerns will inevitably be woven into their managerial concerns. This book provides knowledge of the law that helps create a competitive advantage and build a more efficient and successful operation that better serves the needs of its constituents. New to the Third Edition New/expanded discussions and analysis of current and relevant legal issues. For example, the use of unpaid interns and unpaid volunteers; Bountygate, organizational liability for violent acts of players, and the power of the NFL commissioner; parody and social media; FTC guidelines for endorsers New case opinions. For example, Bouchat v. Baltimore Ravens; Glatt v. Fox Searchlight Pictures New focus cases. For example, Hart v. Electronic Arts, Inc., Hamill v. Cheley Colorado Camps, Inc., Geczi v. Lifetime Fitness, Limones v. School Dist. of Lee County; Woodman v. Kera LLC New competitive advantage strategies. For example, construction safety; ticket sales; worker's compensation and student-athletes Discussion of the legal issues revolving around social media use. For example, Mendenhall v. Hanesbrands and the use of Twitter by professional athletes; IOC guidelines regarding the use of social media by athletes and journalists; social media policies at the high school and collegiate levels Real-world applications. The book is intended for future sport managers, and topics are clearly related to specific roles and functions; relevant and timely examples throughout help generate enthusiasm and lively class discussions. Continued focus on both sport participation and recreation. Sport managers in a variety of organizations can use the legal issues discussed throughout. Reader-friendly tone. Legal theories are clearly explained in student-friendly language. Special Features of the Book Managerial context tables. Chapter-opening exhibits act as organizational and study tools identifying managerial contexts in relation to major legal issues, relevant law, and illustrative cases for the chapter. Case opinions, focus cases, and hypothetical cases. Legal opinions--both excerpted (case opinions) and summarized (focus cases)--illustrate relevant legal points and help readers understand the interplay between fact and legal theory. The cases include questions for discussion, and the instructor's manual provides guidance for the discussion. Hypothetical cases further highlight topics of interest and include discussion questions to facilitate understanding of the material; analysis and possible responses appear at the end of the chapter. Competitive advantage strategies. Highlighted, focused strategies based on discussions in the text help readers understand how to use the law to make sound operational decisions and will assist them in working effectively with legal counsel. Discussion questions, learning activities, and case studies. Thoughtful and thought-provoking questions and activities emphasize important co

This is a dictionary of the language of the law as used in America today. Most of this dictionary is written in ordinary English. Most of the words that lawyers use in writing and talking about the law are the ordinary words that fill the dictionaries of the English language. They have a place in this dictionary when the law gives them a specialized sense; or to emphasize that there is none. Too often an apparent change in sense results not from the law but from bad grammar or redundancy; or from an unsorted host of possible meanings jumbled together and left to the vagaries of interpretation. At the other extreme, individual cases, each walled in by its own distinctive facts and law, may give an immaculately narrowed sense, but neither generalized definition nor standards for the gradation of sense that is the essence of clear usage. A small number of citations to cases of special relevance to word usage are included in this dictionary. The citation count does not measure the indebtedness of this dictionary to old and current sources of American legal usage. The definitions and examples of usage in this dictionary have roots in the law reports of thousands of litigated cases; in law writings formal and informal, profound and trivial; in the talk of lawyers and judges in court and out--the formal and the informal--colloquial and slangy, talk that is precise and talk that is mush; in a long line of dictionaries past and present--law dictionaries, and dictionaries of English and its usage. Drawing from all those sources, the definitions and examples are shaped by more than a half-century of personal immersion in the oral and written language of the law, as law student, practicing lawyer, professor, and writer. And something has been added. This dictionary is designed to sort out the words used in the law, and to identify the different senses in which each is used, and can be used. With cross-reference, it tells how words are related to each other and separated for each other, so that discrimination and choice of usage are possible. Words are grouped together as identical, similar, disparate, departing from or paralleling the usages of ordinary English. Where usage is not uniform, the dictionary comments on what is better, best, and worst. The dictionary concentrates on general legal usage for a profession practicing in the American common law tradition . . . The dictionary does not detail the multitude of other jurisdictional variations, but calls attention to the fact of variation. Although the distinction is often difficult to make, this is a word dictionary, not a short legal encyclopedia. Technicalities in general legal usage are included, but not the intricacies of learning in specialized fields of the law. There is no standard legal pronunciation. Pronunciation is included here when it is unusual, exotic, controversial, or needed to prevent confusion. Pronunciation is rendered in simplified phonetics. American law dictionaries go back to 1839. This one is new and different. --David Mellinkoff, from the Preface

Representing the Corporation gives you the inside track on understanding the legal services the corporation is really seeking from its counsel. Richard H. Weise shares his 30 years of experience in corporate legal affairs to show you how to develop practices that are in tune with the needs and requirements of the client. Weise offers valuable guidance to in-house counsel and practitioners on: Getting client feedback effectively -- Developing a healthy interdependent relationship with the client -- Implementing an effective dispute resolution strategy...an important client satisfier -- Helping a client with ethics management issues -- Offering the client a "no surprises" covenant. -- Working with the client on important compliance issues and crisis management. -- Plus leading-edge coverage of vital topics such as the law of the Internet, international corporate practice, intellectual property, securities law, government contracting, tax, mergers and acquisitions, and more. Representing the Corporation contains a wealth of adaptable sample forms, checklists, spreadsheets, in-house reports, and manuals for your particular situation.
