Once upon a time there was a Chef called Heston who opened a small restaurant called the Fat Duck. At first, he served only simple French classics but gradually, as is the way of things, the Chef's curiosity got the better of him and he began thinking up more unusual dishes, such as

Snail Porridge and Chocolate Wine. There was even talk of a meringue that made diners snort plumes of vapour, like a dragon. Word spread and reached the ears of the Executives who ran a television channel, and they summoned the Chef to their glass fortress. 'We command you to create six Fantastical Feasts', they said. 'These must be based on history, but you may draw on fairytales and legends.

Heston returns with more classic recipes.

Until now, home cooking has remained stubbornly out of touch with technological development but Heston Blumenthal, champion of the scientific kitchen, changes all that with this radical book. With meticulous precision, he explains what the most effective techniques are and why they work. Heston's instructions are precise and easy to follow, with lots of helpful tips, and each chapter is introduced with an explanation of Heston's

his Tikki Masala; he discovers the secret to the ultimate crispy duck in Peking and experiments at home by inflating a Gressingham on a foot pump; he walks the Dickensian streets of Lambeth and learns how to capture the essence of a fish and chip shop in a perfume bottle, and he explores the Willy Wonka-esque Tate & Lyle factory and tastes some seventy-year-old syrup that proves an inspiration for the flavour of his treacle tart. Total Perfection is an original, inspiring and fascinating voyage around the culinary globe.

passion, perfection and weird science behind the man and the restaurant.

Heston Blumenthal is widely acknowledged to be a genius, and The Fat Duck has twice been voted the Best Restaurant in the World by a peer group of top chefs. But he is entirely self-taught, and the story of his restaurant has broken every rule in the book. His success has been borne out of his pure obsession, endless invention and a childish curiosity into how things work- whether it's how smell affects taste, what different flavours mean to us on a biological level, or how temperature is

distributed in the centre of a soufflé. In the first section of The Big Fat Duck Cookbook, we learn the history of the restaurant, from its humble beginnings to its third Michelin star (the day Heston received the news of this he had been wondering how exactly he would be able to pay his staff that month). Next we meet 50 of his signature recipes - sardine on toast sorbet, salmon poached with liquorice, hot and iced tea, chocolate wine - which, while challenging for anyone not equipped with ice baths, dehydrators, vacuum pumps and nitrogen on tap, will inspire home cooks and

chefs alike. Finally, we hear from the experts whose scientific know-how has contributed to Heston's topsy-turvy world, on subjects as diverse as synaesthesia, creaminess and flavour expectation. With an introduction by Harold McGee, incredible colour photographs throughout, illustrations by Dave McKean, multiple ribbons, real cloth binding and a gorgeous slip case, *The Big Fat Duck Cookbook* is not only the nearest thing to an autobiography from the world's most fascinating chef, but also a stunning, colourful and joyous work of art.

Media interest in food has intensified in recent years, leading to a contemporary food landscape where 'alternative' food practices are increasingly visible. Concerns that were once exclusively the domain of activist movements motivated by environmental, animal rights, health and anti-corporate agendas are now central to primetime television cooking shows, mobile apps and social media. This book is the first to explore the impact of popular media and culture on contemporary food politics. Through examination of a range of

media and cultural texts, including news, digital media, advertising and food labelling, it brings together leading and emerging scholars in food studies, media and communications, sociology, law, policy studies, business, and geography. The book explores the practices of alternative food movements, the marketing techniques of conventional and alternative food producers, and the relationships between food industries, media, and the public. Covering topics ranging from agtech start-ups and social justice projects, to new ways of

mediating food waste, celebrity, and 'ethical' foods, *Alternative Food Politics* reveals the importance of media as a driver of food system transformation. This is a pivotal time for media and food industries, and this book is essential reading for scholars and students seeking to better understand the futures, possibilities and limits of food politics today.
