This book is a comprehensive primer to both traditional and emerging E-Commerce technologies. Students with no prior technical knowledge will be able to grasp complex topics such as networking, Internet security, Web languages and other important subjects in a way that illustrates their use through case studies and practice by completing Web projects.

Have you ever driven several miles without noticing anything on the road, or read a page in a book without registering any of it? Do the day's worries and disappointments crowd your mind as you're trying to fall asleep at night? Do you feel stressed much of the time and aren't sure how to find peace? In this book, Amit Sood, M.D., M.Sc., a Mayo Clinic specialist in stress and resiliency, reveals how the mind's instinctive restlessness and shortsightedness generate stress and anxiety and presents strategies for living a more peaceful life. The book is based on the highly popular stress management program offered at Mayo Clinic that Dr. Sood developed after two decades of work with tens of thousands of people. Drawing on groundbreaking brain research, Dr. Sood helps you understand the brain's two modes and how an imbalance between them produces unwanted stress. From this basis, you learn skills that will help you: Develop deep and sustained attention Practice gratitude, compassion and acceptance Live a meaningful life Cultivate nurturing relationships Achieve your highest potential All of these concepts are weaved into a practical and fun journey that has been tested in numerous scientific studies, with consistently positive results. Take the first step to discover greater peace and joy for you and your loved ones. "Dr. Sood has put together a simple, secular and structured program that is anchored in science, is free of rituals and dogmas, and is accessible to everyone. This book can change your life."--Dr. Andrew Weil "An important innovative approach to well-being, one we all should know about."--Dr. Daniel Goleman

This is a story which will make your heart sing - a story for all the family to read together. Young Judy discovers an unexpected package in her grandfather's old study. She has never met her grandfather (Poppy) as he died before she was born, but Judy is the one to unearth the puzzle which Poppy left for his family. To find the treasure which Poppy left, the family must first solve every riddle which he wrote on a beautiful scroll, and carefully wrapped in a rich purple velvet bag. Unless they solve the puzzles, they won't find the treasure. See if you can solve the puzzles before the family does. What has Poppy left them as an inheritance? Have fun with the story and enjoy the Omega Prize at the end.
