Whether it ' s practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

This guide is written especially for do it yourself folks, trade schools, and other non - professional repair technicians. How to fix the most common ovens and cook tops, including all major appliance brands.

The experimental approach in economics is a driving force behind some of the most exciting developments in the field. The 'experimental revolution' was based on a series of bold philosophical premises which have remained until now mostly unexplored. This book provides the first comprehensive analysis and critical discussion of the methodology of experimental economics, written by a philosopher of science with expertise in the field. It outlines the fundamental principles of experimental inference in order to investigate their power, scope and limitations. The author demonstrates that experimental economists have a lot to gain by discussing openly the philosophical principles that guide their work, and that philosophers of science have a lot to learn from their ingenious techniques devised by experimenters in order to tackle difficult scientific problems.

"How you can fix the most common problems with the most common dishwashers, including: Whirlpool/Kenmore, GE/Hotpoint/JCPenney, Maytag, Frigidaire, Norge, Gibson, Kelvinator, Westinghouse, Montgomery Ward/Signature, Thermadore/Waste King, and many, many more"--Cover.
