Learning Scrapy [Book] - O'Reilly Online Learning
Scrapy is a high-level framework that requires learning from Python
beginners and experts alike. You could call it "the Scrapy language".
As a result, I would recommend going through the material, and if you
feel that you find the Python syntax confusing, supplement your
learning with some of the excellent online Python tutorials or free
Python online courses for beginners at Coursera or elsewhere.

Learning Scrapy | Packt
Scrapy will effortlessly perform 16 requests on that site in parallel,
and assuming that, on an average, a request takes a second to
complete, you will be crawling at 16 pages per second. If you multiply
that with the number of listings per page, you will be generating 1600
listings per second.
