Managing ...

The accounts receivable system records each invoice in a master file that also contains information on each customer, including that person's credit rating. The system also keeps track of all the bills outstanding and can produce a variety of output reports, both on paper and on the computer screen, to help the business collect bills.

information on the critical
success factors for decision
making. 1.2 MIS DEFINITION
The Management Information
System (MIS) is a concept of
the last decade or two. It
has been understood and
described in a number ways.
It is also known as the
Information System, the
Information and Decision
System, the Computer- based
information System.
