Bosch literature sets the standard for concise explanations of the function and engineering of automotive systems and components: from Fuel Injection, to Anti-lock Braking Systems, to Alarm Systems. These books are a great resource for anyone who wants quick access to advanced automotive engineering information. The vocational or technical school instructor faced with tough questions from inquiring students will find welcome answers in their pages. Advanced enthusiasts who want to understand what goes on under the skin of today's sophisticated automobiles will find the explanations they seek. And motivated technicians who want to cultivate a confident expertise will find the technical information they need. Both handbooks are fully stitched, case bound and covered with strong but flexible "shop-proof" vinyl for long life. Each of these exhaustive reference manuals includes application-specific material gathered from the engineers of leading European auto companies and other original equipment manufacturers, as well as input from leading authorities at universities throughout the world. After the death of her mother, Su-Lin discovers she has an uncle and aunt, a rich Hong Kong couple who whisk her away to Europe on a fairytale trip. Their first stop is France at an exclusive boutique hotel fronting the Mediterranean. Terrence O'Connor knows all his flaws only too intimately, knows no woman could ever accept the sins of his past, knows he'll die alone. A silly mistake puts them both -- naked -- in the men's steam room. Terry's totally smitten. His past sins forgotten, he manipulates Su-Lin's uncle into a three-week cruise aboard his luxury yacht, the "Glory."
