Offers a close-up look at the invention of the radio and its creator, Guglielmo Marconi, and its dramatic influence on the world of communications, science, and technology. 40,000 first printing.

To an outsider, the world of ham radio is one of basement transmitters, clunky microphones, Morse code, and crackly, possibly clandestine, worldwide communications, a world both mysterious and geeky. But the real story is a lot more interesting: indeed, there are more than two million operators worldwide, including people like Walter Cronkite and Priscilla Presley. Gandhi had a ham radio, as do Marlon Brando and Juan Carlos, king of Spain. Hello World takes us on a seventy-year odyssey through the world of ham radio. From 1927 until his death in 2001, operator Jerry Powell transmitted radio signals from his bedroom in Hackensack, New Jersey, touring the worlds most remote locations and communicating with people from Greenland to occupied Japan. Once he made contact with a fellow ham operator, he exchanged postcards known as QSLs cards with them. For seven decades, Powell collected hundreds of these cards, documenting his fascinating career in amateur radio and providing a dazzling graphic inventory of people and places far flung. This book is both an introduction to the fascinating world of ham and a visual feast for anyone interested in the universal language of graphic design.

your money grows for you—automatically. Best of all, spend guilt-free on the things you love. Personal finance expert Ramit Sethi has been called a “wealth wizard” by Forbes and the “new guru on the block” by Fortune. Now he’s updated and expanded his modern money classic for a new age, delivering a simple, powerful, no-BS 6-week program that just works. *I Will Teach You to Be Rich* will show you:

- How to crush your debt and student loans faster than you thought possible
- How to set up no-fee, high-interest bank accounts that won’t gouge you for every penny
- How Ramit automates his finances so his money goes exactly where he wants it to—and how you can do it too
- How to talk your way out of late fees (with word-for-word scripts)
- How to save hundreds or even thousands per month (and still buy what you love)
- A set-it-and-forget-it investment strategy that’s dead simple and beats financial advisors at their own game
- How to handle buying a car or a house, paying for a wedding, having kids, and other big expenses—stress free
- The exact words to use to negotiate a big raise at work

Plus, this 10th anniversary edition features over 80 new pages, including:

- New tools
- New insights on money and psychology
- Amazing stories of how previous readers used the book to create their rich lives

Master your money—and then get on with your life.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration’s three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy,

Deep coverage and rigorous examination of international corporate finance Multinational Finance offers an advanced exploration of international corporate finance concepts and operations. Despite its status as one of the most rigorous texts on the topic, this book remains accessible and readable without sacrificing depth of coverage. Sidebars, key terms, essays, conceptual questions, and problems with solutions help aid in the learning process, while suggested readings and PowerPoint handouts reinforce the material and offer avenues for further exploration. This new sixth edition includes Excel templates that allow students to use real-world tools in a learning environment, and the modular structure facilitates course customization to individual objectives, interests, and preparatory level. The emphasis is
