From the critically-acclaimed author of the international bestseller VOX comes a suspenseful new novel that examines a disturbing near future where harsh realities follow from unreachable standards. It's impossible to know what you will do... Every child's potential is regularly determined by a standardized measurement: their quotient (Q). Score high enough, and attend a top tier school with a golden future. Score too low, and it's off to a federal boarding school with limited prospects afterwards. The purpose? An improved society where education costs drop, teachers focus on the more promising students, and parents are happy. When your child is taken from you. Elena Fairchild is a teacher at one of the state's elite schools. When her nine-year-old daughter bombs a monthly test and her Q score drops to a disastrously low level, she is immediately forced to leave her top school for a federal institution hundreds of miles away. As a teacher, Elena thought she understood the tiered educational system, but as a mother whose child is now gone, Elena's perspective is changed forever. She just wants her daughter back. And she will do the unthinkable to make it happen.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
