cards. Through these indelible artifacts, reminiscences, and quotes, she captures a world of warehouse takeovers, trippy lightshows, Ecstasy, and nonstop dancing--all from the last unplugged youth subculture of modern times.

Events that started as secretive nights in underground clubs, with word-of-mouth advertising grew from one-off take-overs of unusual venues into huge open land-based events. Pager and telephonic communication became the medium of message-passing, and flyers were key to it all: informing the right people about the right place at the right time. Chelsea Berlin was there from the beginning, attending many of the now legendary events, from Club Shoom to Energy and beyond. In Rave Art, the whole exciting movement is documented through the flyers that were handed out freely (or sometimes privately) to inform partygoers of the next venue. Flyer design became an artform, and this book contains hundreds of the most significant and rare examples from Chelsea's huge collection. Rave Art paints a vivid picture of what is probably the last significant youth culture movement of modern times.

The distinctive visual style of the American techno scene is featured in this source-book showing the best examples of club flyers created to promote rave events.

Ecstasy did for house music what LSD did for psychedelic rock. Now, in Energy Flash, journalist Simon Reynolds offers a revved-up and passionate inside chronicle of how MDMA ("ecstasy") and MIDI (the basis for electronica) together spawned the unique rave culture of the 1990s. England, Germany, and Holland began tinkering with imported Detroit techno and Chicago house music in the late 1980s, and when ecstasy was added to the mix in British clubs, a new music

subculture was born. A longtime writer on the music beat, Reynolds started watching—and partaking in—the rave scene early on, observing firsthand ecstasy’s sense-heightening and serotonin-surg-ing effects on the music and the scene. In telling the story, Reynolds goes way beyond straight music history, mixing social history, interviews with participants and scene-makers, and his own analysis of the sounds with the names of key places, tracks, groups, scenes, and artists. He delves deep into the panoply of rave-worthy drugs and proper rave attitude and etiquette, exposing a nuanced musical phenomenon. Read on, and learn why is nitrous oxide is called “hippy crack.”

An updated, expanded history of techno music with special attention to its roots in Detroit.

New York: Club Kids is a high impact visual diary of New York City in the 1990s, seen through the eyes of Waltpaper, a central figure within the Club Kids. The Club Kids comprised an artistic and fashion-conscious youth movement that crossed over into the public consciousness through appearances on daytime talk shows, magazine editorials, fashion campaigns, and music videos, planting the seeds for popular cultural trends such as reality television, self-branding, influencers, and the gender revolution. Known for their outrageous looks, legendary parties, and sometimes-illicit antics, The Club Kids were the hallmarks of Generation X and would prove to be the last definitive subculture group of the analog world. The '90s, whose 30th anniversary is quickly approaching, has come to be known as the last discernible and cohesive decade, cherished by those who experienced it and romanticized by those who missed it. The first comprehensive visual document of '90s nightlife and street culture, New York Club Kids grants special access to a dormant world, curated and narrated by someone who participated in the experience. Featuring rare photographs

and ephemera, the book culls from the personal archives of various photographers and artists whose recognition is long overdue.

Dive into the 1990s New York club scene with never-before-seen photos by its most prolific photographer, Steve Eichner. Eichner was a fixture of 1990s New York City nightlife and served as both its official and unofficial photographer in an era before cellphones and selfies. In this book, readers go beyond the velvet ropes and into the spaces that witnessed some of the decade's most incredible and sought-after parties. Previously unpublished, these intoxicating full-color photographs capture the over-the-top costumes, non-stop dancing, glitter, confetti, sex, drugs, and music that made 90s New York unlike any other place. Celebrities abound, from Leonardo DiCaprio, Dennis Hopper, and Tupac to Joan Rivers, Michael Musto, and Donald Trump. Eichner takes you to many of the city's hot spots, including the Limelight, the Tunnel, Webster Hall, Club Expo, and Club USA. Texts by famous club owner Peter Gatien and BuzzFeed photo essay editor Gabriel H. Sanchez offer a historic and cultural perspective on an era when New York City was more affordable and every night saw artists, bankers, drag queens, musicians, and poets reveling together.
