Buckle up as Douglas Keister takes you for a decidedly retro ride in the world of diminutive travel trailers in Teardrops and Tiny Trailers. The demand for vintage trailers—the smaller the better—has risen dramatically in recent years, with the most in-demand trailers being "teardrops," first manufactured in the 1930s and containing just indoor sleeping space and an outdoor exterior kitchen. Also profiled in the book are "canned ham" trailers, whose shape resembles the profile of a can of ham; small-size examples of America's most beloved vintage trailer, the Airstream; miniscule gypsy caravans in Europe;

and fiberglass trailers made in Canada. Two hundred color photographs showcase these trailers' sleek exteriors, retro-styled interiors, and, in many cases, the restored classic cars that tow them. Teardrops and Tiny Trailers includes a resource section chock-full of places to locate vintage trailers, clubs to join, and rallies to attend. Photographer/writer Douglas Keister has authored thirty-six critically acclaimed books. His books on classic recreational vehicles include Ready to Roll, Silver Palaces, and Mobile Mansions. In addition, he has authored twenty-five books on architecture, including Inside the Bungalow, Storybook Style, Red Tile Style, Classic Cottages, and Cottages. Keister also writes and illustrates magazine articles and contributes photographs and essays to dozens of magazines, newspapers, books, calendars, posters, and greeting cards worldwide. He lives in Chico, California.

This photographic record celebrates a 100-year history of Renault cars, drawing on Renault's long history of innovative engineering, dominating characters, flair for business and organization. The title also looks at Renault in the Nazi era. By World War II, the Renault firm was one of France's major industrial concerns and Louis Renault was among the richest and most powerful French industrialists of his day. Later, the Renault company prospered without him, and has continued to design and mass produce a succession of practical and sometimes ground-breaking vehicles. This title is aimed at readers with an interest in Renault, and European automobiles.
