 There are many things about chess that I will call "chess secrets", that are never explained in chess books and can't be explained as they occur on a subconscious level. Most chess books are written by chess grandmasters and for them to see plans and concepts comes natural and they often assume that the reader sees what they see.

Chess Secrets—Why does Black lose?—Expert Chess
 Chess is a visual game. A chess player must be able to recognise elementary patterns, therefore the tactics in this book will be primarily explained graphically. This approach is supported by a large numbers of diagrams, which will also allow the reader to study this book without a chessboard. Chess is also a game of logic.

Understanding Chess Tactics
 Secrets of chess tactics is an extremely advanced book: This book was remade into one of the books in the School of Chess Excellence Series. (4 books) I would recommend to start with the "school of future champions" series (5 books), but that this book is eventually very much worth reading. level 1.
