Upon landing at an interplanetary station, Kris Kelvin discovers that an advanced power has taken over.

Solaris Rising is the first in an exciting new series of anthologies that are set to reaffirm Solaris's proud reputation for producing high quality science fiction. Featuring all original short stories from many best-selling authors such as Peter F. Hamilton, Alastair Reynolds, Stephen Baxter, Paul di Filippo, Adam Roberts, Lavie Tidhar, Ian Watson, Ken MacLeod, Mike Resnick, Tricia Sullivan, Eric Brown, Steve Rasnic Tem along with other top name authors; stories guaranteed to surprise, thrill and delight, demonstrating why science fiction remains the most innovative, satisfying, and downright exciting genre of all.

A collection of short fiction and novellas showcases the work of such popular science fiction writers as Alastair Reynolds, Stephen Baxter, and John Meaney.

Impedimenta se complace en presentar, por primera vez en traducción directa del polaco, «Solaris», la mítica novela que consagró a Stanisław Lem como autor de culto. Un texto hoy en día considerado un clásico sin paliativos de la literatura moderna. Kris Kelvin acaba de llegar a Solaris. Su misión es esclarecer los problemas de conducta de los tres tripulantes de la única estación de observación situada en el planeta. Solaris es un lugar peculiar: no existe la tierra firme, únicamente un extenso océano dotado de vida y presumiblemente, de inteligencia. Mientras tanto, se encuentra con la aparición de personas que no deberían estar allí. Tal es el caso de su mujer quien se había suicidado años antes, y que parece no recordar nada de lo sucedido. Stanisław Lem nos presenta una novela claustrofóbica, en la que hace un profundo estudio de la psicología humana y las relaciones afectivas a través de un planeta que enfrenta a los habitantes de la estación a sus miedos más íntimos.

A compelling anthology of never-before-published fantasy fiction represents an array of genres, including fable, fairy tale, epic quest, urban mystery, and more, by such acclaimed talents as Janny Wurts, Hal Duncan, Juliet E. McKenna, Tim Pratt, Jake Lake, Jeff Vandermeer, and Chris Roberson, among others. Original.

Oracle® Solaris 11 System Administration covers every skill required to effectively install and administer the Oracle® Solaris 11.1 operating system in production environments. It features dozens of step-by-step “learn by example” procedures, demonstrating how to apply complex solutions in real-world data center environments. Author Bill Calkins has administered and taught Oracle Solaris and its predecessors for more than twenty years. He also helped develop the newest Oracle Certified Associate (OCA) and Oracle Certified Professional (OCP) exams, which raise the bar for Solaris certification. This guide covers every new 1Z0-821 exam topic in detail and also covers many 1Z0-822 exam topics. Calkins also reviews the changes that system administrators will face when upgrading to Solaris 11.1 and presents new ways to perform familiar tasks on both SPARC and x86 hardware. You'll learn how to Install the Solaris 11 Operating Environment with Live Media or Text Interactive installers Install, manage, and update software with the Image Packaging System and IPS repositories Understand, customize, and troubleshoot SPARC and x86 boot processes from system power-up to loading the OS (including coverage of ILOM, OpenBoot, and GRUB 2) Administer and create services through the service management facility (SMF) Configure system messaging using SMF notifications, syslog and rsyslog Configure and administer ZFS storage pools, including ZFS on the boot drive, local disks, LUNs, and a SAN Configure and manage ZFS file systems: encryption, redundancy, snapshots, clones, network sharing, monitoring, device replacement, and legacy UFS migration Create, migrate, contain, and administer zones, including solaris10 branded and immutable zones Use RBAC to create custom rights profiles and grant special privileges Manage and monitor system process scheduler (including FSS process schedulers and proc tools) Configure Solaris networking and network services, including Reactive and Fixed Network Configurations, VNICs, and Virtual Networking A companion website ([unixed.com/solaris11book.html](http://unixed.com/solaris11book.html)) includes new 1Z0-821 and 1Z0-822 study strategies and self-assessment exams.

How do you encompass all the worlds of the imagination? Within fantasy's scope lies every possible impossibility, from dragons to spirits, from magic to gods, and from the unliving to the undying. In Fearsome Journeys, master anthologist Jonathan Strahan sets out on a quest to find the very limits of the unlimited, collecting twelve brand new stories by some of the most popular and exciting names in epic fantasy from around the world. With original fiction from Scott Lynch, Saladin Ahmed, Trudi Canavan, K J Parker, Kate Elliott, Jeffrey Ford, Robert V S Redick, Ellen Klages, Glen Cook, Elizabeth Bear, Ellen Kushner, Ysabeau S. Wilce and Daniel Abraham, Fearsome Journeys explores the whole range of the fantastic.

The perfect guide for NT administrators learning Solaris--or anyone integrating NT and Solaris. More and more system administrators face the challenge of integrating Solaris with Windows NT--or of migrating from departmental NT servers to enterprise Solaris Operating Environments. For them, this book will be an invaluable resource. A leading Sun engineer who is also a Microsoft Certified Systems Engineer teaches users all they need to know to smoothly coexist with, or transition from Windows NT.

Solaris 10 System Administration Part II Exam CX-310-202 Bill Calkins In this book you'll learn Advanced Topics in Solaris 10 System Administration for SPARC and x86-based systems including: Administering the network environment in Solaris 10 Setting up RAID metadevices using SVM Configuring ZFS storage pools and file systems Configuring and administering Solaris zones and containers Administering virtual file systems and swap space Creating and administering user and Role-Based access accounts (RBAC) Using advanced installation tools to install, clone, and upgrade the operating system Bill's original Cert Prep guides were used throughout Sun's service organization as the SEs studied for Certification. This was not mandated by Sun management but happened through word-of-mouth by those software engineers who had successfully passed the exam. In this new edition, Bill adds a chapter for ZFS. It includes Live Upgrade conversion to a ZFS root filesystem and Zone/ZFS inter-operation. Plus, all chapters have been updated to reflect the Solaris 10 10/08 enhancements. This new guide remains the best source of preparation for the Solaris 10 Cert exam. -Brian Howard, Systems Engineer / Solaris Ambassador WRITTEN BY A LEADING SOLARIS EXPERT! Bill Calkins is owner and president of Pyramid Consulting, a computer training and consulting firm specializing in the implementation and administration of open systems. He works as a consultant with Sun Microsystems and has contributed extensively to the Solaris certification program and simulation technology. He also owns [www.unixed.com](http://www.unixed.com), a website that provides online UNIX training materials. Bill has more than 20 years of experience in UNIX system administration, consulting, and training at more than 250 different companies and government agencies and has authored several books on Solaris.
