SAFEGUARD THE SEAS (STS) is a non-profit, 501 (C) (3) organization and was founded in 2019 by William Mckeever, an author and filmmaker with a passion to protect the oceans. Oceans are under tremendous threat from overfishing of fish species such as sharks and tuna. In addition, single-use plastic is choking our oceans and threatening sea life.

This is an interesting story of British sea-power (England, Scotland Ireland) for the 1000 years to 1649. The author makes it interesting notwithstanding a relative paucity of written sources. It sets the scene for the rise of the dominant British Navy of the 18th and and early 19th Centuries.

First published in 1998, The Safe Guard of the Sea is a detailed naval history of Britain for the years stated. This means that it looks at operations by Ireland, Wales and Scotland as well as England for a refreshing change against a background of Viking incursions in the early years, whilst wars with France and Spain dominate the later years.

Throughout Britain's history, one factor above all others has determined the fate of the nation: its navy. N. A. M. Rodger's definitive account reveals how the political and social progress of Britain has been inextricably intertwined with the strength - and weakness - of its sea power, from the desperate early campaigns against the Vikings to the defeat of the great Spanish Armada.
