“ little green men ” would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of Friendly Fire, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from

M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their

What most astonished Bryan were the similarities found

again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. He interviews ufology ' s most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists.
