The World Investment Report series provides the latest data and analysis foreign direct investment (FDI) and other activities of transnational corporations, as well as the policies to regulate them at the national and international levels. It aims to analyse the cross-border activities of translational corporations and related policy measures with a view to helping policymakers formulate appropriate policy responses. The special theme of the 2016 Report examines the ownership of multinational enterprises and the control of affiliates, analyzing related key and emerging policy issues. These include entry conditions for foreign investors and treatment of established investment, as well as investment promotion and facilitation. Bringing together an innovative analysis of complex multinational ownership structures and relevant policy practices, the focus of the report is on the effectiveness of existing policies for distinguishing between "domestic" and "foreign" companies in a globalized economy. The report provides policymakers a new framework for handling ownership issues in 21st century investment policymaking.

An Introduction to Contemporary International Law: A Policy-Oriented Perspective introduces the reader to all major aspects of contemporary international law. It applies the highly acclaimed approach developed by the New Haven School of International Law, holding international law as an ongoing process of authoritative decision-making through which the members of the world community identify, clarify, and secure their common interests. Unlike conventional works in international law, this book is organized and structured in terms of the process of decision making in the international arena, and references both classic historical examples and contemporary events to illustrate international legal processes and principles. Using contemporary examples, this Third Edition builds on the previous editions by contextualizing and dramatizing recent events with reference to seven features that characterize the New Haven School approach to international law: participants, perspectives, arenas of decision, bases of power, strategies, outcomes, and effects. This new edition highlights cutting-edge ideas in international law, including the right to self-determination, the evolution of Taiwan statehood, the expanding scope of international concern and the duty of states to protect human rights, the trend towards greater accountability for states and individual decision-makers under international law, and the vital role individual responsibility plays in the emerging field of international criminal law. It offers a new generation the intellectual tools needed to act as responsible citizens in a world community seeking human dignity and human security for all people.

Der Band schlägt ein Konzept des transnationalen Konzerns für das Völkerstrafrecht vor. Die Analyse von Völkerrecht, EU-Kartellrecht, US- und englischem Recht sowie ökonomischer Theorien zeigt den Konzern als ökonomische Einheit, wenn Kontrollmacht und tatsächliche Kontrollausübung vorliegen. Das Buch ergnzt die strafrechtliche Debatte um einen bis jetzt vernachlssigten gesellschaftsrechtlichen Blickwinkel und schafft mehr Klarheit hinsichtlich der Konturen und notwendigen Elemente des transnationalen Konzerns. Die Kriterien entspringen einer grndlichen Analyse transnationaler, bergreifender Strukturmerkmale des Konzerns in den untersuchten Rechtsordnungen. Das Hauptaugenmerk liegt dabei auf der tatschlichen Kontrollausübung und ihren verschiedenen Formen. Als Ergebnis der Synthese steht ein detailliertes und konomisch abgesichertes Konzept des transnationalen Konzerns, der als potenzieller Adressat vlkerstrafrechtlicher Normen in Betracht kommt.
