This study for the U.S. Marine Corps reviews the history of the integration of women into the U.S. military and explores the role of cohesion, the gender integration of foreign militaries and domestic police and fire departments, and potential costs.

The stated reason for invading Iraq was its alleged clandestine pursuit of weapons of mass destruction in defiance of UN resolutions. Even though the allegation was proven false, the international community remains preoccupied with the threat of the proliferation and use of such terrible weapons. The questions discussed in this book include doctrinal issues regarding the use of force in general; the implications of a shift in the utility of nuclear weapons from deterrence to compliance and of a focus on non-proliferation to the neglect of disarmament; the place and role of the United Nations in controlling the spread and use of WMD; the regional dynamics of proliferation concerns in North-east Asia and the Middle East; and the threats posed by the possible acquisition of nuclear weapons and missiles by non-state actors.--Publisher's ddescription.

The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.

This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine Corps/Navy history. In late November 2001, Mattis' force seized what became Forward Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the "three-block war." Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' "surge strategy" in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story "How We Lost the War We Won." In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .

An ethics handbook for a profession unlike any other

Although the technologies of war will always change, the insights of great leaders are timeless. And at no time are those lessons more important than in the heat of combat with lives on the line. The key is in preparation before a conflict. Battle Leadership helps you be prepared by teaching such essential skills as: How to handle different personalities under extreme stress. How to prepare your troops psychologically for combat. Insight into proven battlefield tactics (even if some of those tactics are only still relevant for their historical insights). How to instill confidence in those following you. While military tactics change, the wisdom of true leadership invariably holds. These lessons can even be applied to running a business, non-profit or government department, but they are crucial to every military commander or aspiring officer. Find out why when lives are on the line, generations have turned to and continue to learn from Battle Leadership.

Tells how on Easter morning 1972, Marine Corps captain John Walter Ripley braved enemy fire to blow up a bridge at the Cua Viet River near Dong Ha, keeping thirty thousand enemy soldiers and two hundred tanks at bay.

“Eugene Sledge became more than a legend with his memoir, *With The Old Breed*. He became a chronicler, a historian, a storyteller who turns the extremes of the war in the Pacific—the terror, the camaraderie, the banal and the extraordinary—into terms we mortals can grasp.”
Tom Hanks NEW YORK TIMES BESTSELLER
In *The Wall Street Journal*, Victor Davis Hanson named *With the Old Breed* one of the top five books on epic twentieth-century battles. Studs Terkel interviewed the author for his definitive oral history, *The Good War*. Now E. B. Sledge’s acclaimed first-person account of fighting at Peleliu and Okinawa returns to thrill, edify, and inspire a new generation. An Alabama boy steeped in American history and enamored of such heroes as George Washington and Daniel Boone, Eugene B. Sledge became part of the war’s famous 1st Marine Division’s 3rd Battalion, 5th Marines. Even after intense training, he was shocked to be thrown into the battle of Peleliu, where “the world was a nightmare of flashes, explosions, and snapping bullets.” By the time Sledge hit the hell of Okinawa, he was a combat vet, still filled with fear but no longer with panic. Based on notes Sledge secretly kept in a copy of the New Testament, *With the Old Breed* captures with utter simplicity and searing honesty the experience of a soldier in the fierce Pacific Theater. Here is what saved, threatened, and changed his life. Here, too, is the story of how he learned to hate and kill—and came to love—his fellow man. “In all the literature on the Second World War, there is not a more honest, realistic or moving memoir than Eugene Sledge’s. This is the real deal, the real war: unvarnished, brutal, without a shred of sentimentality or false patriotism, a profound primer on what it actually was like to be in that war. It is a classic that will outlive all the armchair generals’ safe accounts of—not the ‘good war’—but the worst war ever.”
